Non-hunter (Observer)	\$300.00

- \* One free bundle of wood per night.
- \* Hunting of animals and birds not on the list prohibited. (NB!)
- \* No negotiating with guides or discussions with guides regarding prices.

**Hunting Conditions**

Only ethical hunting in the true spirit will be allowed.

Guides and hunters are taken to the hunting area, from where hunting is done on foot. No private vehicles allowed in the hunting area, unless with prior permission.

A maximum of 4 hunters at any time in the hunting area will be allowed. (Discretion of owner)  
 No hunting from vehicles. The hunting vehicle is to be used solely to transport hunters between the lodge and hunting area and back.

No littering in the veld.

Hunting is from sunrise until half an hour before sunset. No hunting at dusk or at night.

Do not give liquor to the guides. A soft drink is sufficient.

No hunter will be allowed to hunt under the influence of alcohol. No alcohol is allowed in the hunting area.

Hunters must satisfy themselves regarding the specie, size and gender of the game they want to shoot. No one should rely on the guides, as no discount is allowed for small or wrong game. The hunter is the one who pulls the trigger, not the guide.

Permits for the transport of warthog and bush pig must be obtained at own costs.

We have an arrangement with our guides that we double-up on all bribes they receive to keep quiet about wounded animals. IT WORKS.

No calibre smaller than .243 or 6mm allowed.

All firearms must be functioning properly and must be properly sighted before arrival.

Every shot is paid for:

- (1) Game killed – full price
- (2) Game wounded – full price / end of hunt (Discretion of Owner).
- (3) If an animal cannot be proved wounded – 50% of value of specie shot at (Discretion of Owner).
- (4) Three shots missed – end of hunt. (Sorry ☺)

Firearms must be unloaded and made safe while on vehicles and in the non-hunting area. Hunters are solely responsible for the safekeeping of their own firearms. All firearms must be properly licensed.

If hunters do not show up, they will forfeit any payments made.

Any damage to property will be added to the hunter's account.

Help us to prevent veld fires. Keep all fires under control and in designated fireplaces. Hunters, non-hunters and children enter Adansonia Eco Lodge at their own risk. No responsibility for any illness, accident and injury or any expenses arising from such illness, accident or injury, nor any damage or loss of personal items, will be accepted.

**Payment for accommodation must be made in full before arrival.**

**Payment for hunting: Cash or EFT as per prior arrangement – before departure on last day. No client will leave Adansonia Eco Lodge if his/her account is not settled in full.**
